# FINAL ACCOUNTS OF PARTNERSHIP FIRMS I 

## Unit Structure:

1.0 Objective
1.1 Introduction
1.2 Partnership Deed
1.3 Partnership Final Account
1.4 Profit and Loss Appropriation Accounts
1.5 Guarantee of Profits to / Or by a Partner
1.6 Joint Life Policy
1.7 Check Progress

### 1.0 OBJECTIVE OF THE UNIT

After studying the unit the student will be able to :

- Define the meaning of Partnership Deed.
- Transfer the Trial Balance.
- Describe the Accounting Procedure and the treatment to various adjustments in Final Accounts.
- Calculate the Interest on Capital and Interest on Drawings.
- Solve the practical problems.

### 1.1 INTRODUCTION

A Partnership is defined by section 4 of the Indian Partnership Act 1932, as "The relation between persons who have agreed to share profits of business carried on by all or by any of them acting for all: Persons who have entered into Partnership are individually called as Partners and collectively called as a firm.

### 1.1.1 There are three important characteristics of Partnership

1) There should be AGREEMENT between two or more persons.
2) This agreement must be to SHARE the profits of the business.
3) The business must be carried on by all the partners or by any one of the partner acting for all of them.

### 1.2 PARTNERSHIP DEED

We have seen above that Partnership is created by an AGREEMENT. It is not necessary to have a written agreement. However written agreement is desirable because it can avoid dispute in future. The Deed of Partnership is a document in writing which contains the important terms that the partners have agreed among themselves. The partnership deed should be properly drafted and stamped as required by Stamp Act.

### 1.2.1 Partnership deed specific:-

In case of specific Provision in the Partnership deed (which may be oral or written), the appropriation (or distribution) of Profit is done accordingly.

### 1.2.2 Partnership deed is silent (or absence of Partnership deed):-

In this case, following provisions of section 13 of the Indian Partnership Act, 1932 would be applicable:-

1) Interest on capital - Not Allowed.
2) Interest on capital - Such interest is payable only if allowed by the partnership deed. Out of profits.
3) Interest on drawings - Not Allowed.
4) Salary to Partners - Not Allowed.
5) Commission to Partners - Not Allowed.
6) Interest on Partners loan - $6 \%$ p.a. allowed.
7) Profit/ or Loss SharingRratio - Equal for all Partners (Even if Partner's capital may be unequal).

### 1.3 PARTNERSHIP FINAL ACCOUNTS

Each partner should know the financial performance of the business for the year. Each partner has unlimited liability and therefore, he should also know the state of affairs (i.e. Assets and Liabilities) on a particular date. The accounts of a partnership business are prepared on the basis of double entry as well as accrual basis. The accounts consider outstanding expenses, prepaid expenses, outstanding Income, etc. to determine profit (or loss) during the accounting year.

## The final accounts of partnership firm includes:-

1) Trading Account to disclose the Gross Profit (or Gross Loss) during the accounting year.
2) Profit and Loss Account to disclose Net Profit (or Net Loss) during the accounting year.
3) Profit and Loss Appropriation Account to disclose the distribution of Net Profit (or Net Loss) among partners after considering interest on partners capital, interest on drawing, salary to partners etc. If there is
no appropriation, then the net profit from the Profit and Loss Account is transferred to Capital.
4) Balance Sheet to disclose the Assets and Liabilities at the end of the accounting year.
5) Manufacturing Account may be prepared (in addition to Trading Account) to disclose Cost of Goods produced and other elements of cost taking figure in Manufacturing Account shows cost of production, which should be transferred to Trading Account.
6) Partners Capital Accounts are prepared separately and then the closing balance is transferred to the Balance Sheet. When Partners Capital A/c, If Partner's Capital A/c are fixed, it is transferred to Current Account.

### 1.4 PROFIT AND LOSS APPROPRIATION A/C

This is a special Account prepared in case of only PARTNERSHIP firm. It shows how the Net profit/Net Loss has been distributed (Appropriated) amongst Partners.

Note: In case of Partnership firm any remuneration paid or payable to partners in the form of salary, rent. Interest on capital, commission etc. is treated as distribution of profit and not as business expense. Therefore the above expenses if paid or payable to partners shall not be debited to Profit and Loss Account but shall be debited to Profit and Loss Appropriation A/c.

## Thus this A/c will be debited by:

1) Net Loss (transferred from credit side of Profit \& Loss Account)
2) Salaries, Rent, Interest on Capital, Commission etc. to Partners

This A/c will be credited by

1) Net Profit (transferred from the Debit side of Profit \& Loss A/c)
2) Interest on Drawing charged to Partners.

The difference in this account will show the Final Net Profit/Loss which can distributed amongst the partners in their profit sharing ratio.

If the Credit side is heavier-profit to be distributed
If the Debit side is heavier -Loss transferred to Partners Account

### 1.4.1 INTEREST ON CAPITAL OR SALARY ETC

Interest or Salary is payable only out of the Profit (i.e. on appropriation of Profit). Therefore,

1) In case of loss, no interest or Salary is allowed.
2) In case if Profit is less than Interest, etc then such interest etc. is limited to the extent of profit.

However, the partner may decide to waive such intimation (by specific provision in the partnership deed) that interest, etc. is allowed even (if there is a loss) then the amount of loss is increased and such increased (entire) loss is shared by the partner in the profit (and loss) sharing ratio.

### 1.4.2 INTEREST ON DRAWINGS

The partner may be charged Interest on the Drawing. So as to make distribution of profit more equitable, Interest on Drawing is charged on the different amounts withdrawn on the different dates during the accounting year. The interest on drawings is calculated by the Product Method or the Average Due Date Method. Usually, when a partner draws a fixed amount monthly, then the interest on drawings is calculated as follows:-

| Withdrawals | Interest on total Drawings |
| :---: | :---: |
| a) Beginning of each month (e.g. $1^{\text {st }}$ January, $1^{\text {st }}$ February $1^{\text {st }}$ December | For 6.5 month |
| b) Middle of each month (not given) (e.g. $15^{\text {th }}$ January, $14^{\text {th }}$ February, ... $15^{\text {th }}$ December) | For 6 month |
| c) End of each month (e.g. $31^{\text {st }}$ January, $28^{\text {th }}$ February, $31^{\text {st }}$ December) | For 5.5 month |

### 1.5 GUARANTEE OF PROFITS TO/ OR BY A PARTNER

According to the partnership deed, one or few partners are guaranteed a minimum amount of profit, therefore, such partner would receive guaranteed (minimum) profit or profit as per profit sharing ratio which ever is higher.

## The different types of guarantee arrangements are as follows:-

1) A Partner is given an undertaking that his share in profits (including salary, interest on capital etc) will not be below a certain amount. Such guarantee may be given by one partner or by all other remaining partners. Usually, in such a case in future, when the concerned Partner's share of profit exceeds the minimum limits then the excess profit (above minimum limit) is refunded (to the extent profits overdrawn in the past)
2) A partner guarantees that the profit of the firm would above a certain figure in such case the profit is lower, then the guarantor partner's account is debited and profit and loss Appropriation $\mathrm{A} / \mathrm{c}$ is credited.
3) A partner guarantees that, if particular partner's share of profit exceeds a certain amount, then he would suffer to the extent of difference (i.e. to the extent of profit above certain amount the guarantor partner would receive less profits).

### 1.6 JOINT LIFE POLICY

The object of taking life policy on the lives of the partner is to insure against the chances or disturbance in the business due to death of any one of the partners. The amount payable to the legal representative of the deceased partner is paid out of the policy amount received from the Insurance Company; otherwise, the assets may have to be sold, which may result in the disturbance to or closure of the business. The firm can take one Joint Policy on the life of all partners, or otherwise, it may take separate policies on the life of each partner.

## Accounting treatment may be one of the following three ways:-

1.6.1 Premium paid is treated as expense of the firm and debited to Profit and Loss A/c when amount is received it is credited to Partners Capital in their profit sharing ratio
1.6.2 When premium paid is treated as assets: - In this case premium paid is debited to Joint Life Policy A/c. Joint Life Policy A/c is kept at surrender value, on date of balance-sheet. The balance in Policy A/c in excess of surrender value is treated as loss and transferred to $\mathrm{P} \& \mathrm{~L} \mathrm{~A} / \mathrm{c}$. When amount received on surrender of policy or maturity of policy, is credited to Joint Life Policy A/c. Balance in Joint Life Policy being profit credited to Partners Capital $\mathrm{A} / \mathrm{c}$ in their profit sharing ratio.
1.6.3 When premium paid treated as asset and Joint life policy reserve is maintained. In this case premium paid is debited to Joint Life Policy A/c at the end of the year Joint Life Policy Reserve is created to the extent of premium paid by debiting to Profit and Loss A/c and crediting to Joint life policy reserve a/c. Both Joint Life Policy and Joint Life Policy Reserve A/c are brought down to surrender value by debiting Joint Life Policy Reserve A/c crediting Joint Life Policy A/c. At the end of the year Joint Life Policy is shown on Assets side of the Balance Sheet. Joint Life Policy Reserve a/c is shown on the Liability side of the Balance Sheet.
On the maturity of the policy or when policy is surrendered following entries are passed.

When Joint Life Policy premium paid
a) Joint Life Policy A/c ......Dr.

To Bank A/c
b) For transferring to Profit \& Loss A/c (equal to premium paid) Profit \& Loss A/c ......Dr.

To Joint Life Policy Reserve A/c
c) For bring balance in Joint life policy to surrender value

Joint Life Policy Reserve A/c ..... Dr.
To Joint Life Policy A/c
Above entries are repeated every year, if joint life policy surrendered or matured.

On maturity of policy/surrender following entries are passed.
a) Bank A/c ....Dr.

To Joint Life Policy A/c
b) For excess amount received

Joint Life Policy A/c.......Dr
To Joint Life Policy Reserve A/c
c) For transferring Joint life policy Reserves to Partners Capital A/c in their profit sharing ratio. Joint Life Policy Reserve A/c.....Dr

### 2.7 ACCOUNTING PROCEDURE

- When New Partner is admitted on $1^{\text {st }}$ day of the year or on Last day of the year, usual final A/c should be prepared i.e. division in Profit \& Loss A/c, Profit \& Loss Appropriation A/c is not required.
- Similarly in case of Retirement/Death of a partner on $1^{\text {st }}$ day or last day of the year, there is no need of preparing Profit \& Loss A/c and Profit\& Loss Appropriation A/c in columnar form before retirement and after retirement of partner.
- In both of above cases, it is usual Partnership Final A/c.
- In case of Admission on Retirement or Death of Partner in between the year - Either prepare Final Accounts on that date to find out Profit or Loss upto change in partnership i.e. Close the books of Accounts on that date.
- However it may not be possible to close books of accounts on the date of Admission or Retirement or Death of the Partner. Partners continue same books of accounts up to the end of the year. In such case Profit \& Loss A/c as well as Profit and Loss Appropriation A/c are prepared in columnar form i.e. Before Change in Partnership and After Change in Partnership then following accounting procedure is followed.

1) Prepare Trading A/c to ascertain Gross Profit.
2) Ascertain Time Ratio i.e. number of months before admission and after admission of partner.
3) Similarly ascertain Sales Ratio.

These ratios are required to divide various Income and Expenses as follow:
i Income/Discount Earned/Gross Profit credit to P \& L A/c in Sales Ratio.
ii Interest Earned divide in Time Ratio.
iiiVarious Fixed Expenses divide in Time Ratio e.g. Salaries, Insurance, Rent, Interest paid, Depreciation etc.
iv Various Variable Expenses related with Sales divide in Sales Ratio e.g. Carriage Outwards, Bad Debts written off, Advertisement, Commission, and Depreciation on Delivery Van etc.
4) If details about expenses/income are given for dividing expenses/income should be considered on e.g. Plant was purchased after admission, then Depreciation on New Plant should be debited to II column only (i.e. After Admission] and deducted from Plant in Balance Sheet.
5) Ascertain Net Profit/Loss separately, (say Before Change and After Change) and transfer it to Profit and Loss Appropriation A/c.
6) Interests on Capital if any ascertain before Admission/After Admission of Partner. Debit it to appropriate column and credit to Partners Capital A/c [no interest is payable to new partner before admission] same way any Salaries to Partner, etc. account in respective column.
7) Net Profit before admission transfer to Old Partner in old ratio, a Net Profit after admission of partner transfer to All partner in New Ratio.
8) Transferee balance in Partner Capital Accounts to Balance Sheet.
9) However in case of Retirement of partner same procedure should be followed for division of expenses or income. Then Net Profit before retirement should be ascertained and transferred to Old Partners Capital Accounts. If Balance in Retiring Partners Capital A/c transferred to Loan A/c, Retiring Partners Loan A/c may carry interest. Calculate the Interest and debit it to P \& L A/c in II column (i.e. After Retirement). Net Profit after retirement should be transferred to Continuing Partners Capital A/c in new profit sharing ratio. Same procedure should be followed in case of death of partner. However balance in Capital A/c of Diseased Partner should be transferred to Executors Loan A/c and shown in the Balance Sheet on Liability Side.

### 2.8 CHECK YOUR PROGRESS:

A. Fill in the Blanks

1. Wages paid for installation of Machinery must be debited to $\qquad$ .

3. If the Incoming Partner is bringing his share of Goodwill in Cash the Journal Entries will be $\qquad$ -.
4. Variable expenses related to sales are to be divided in the $\qquad$ ratio.
5. Net Profit/Loss before admission should transferred to the $\qquad$ partners in their Old Profit Sharing Ratio.
B. State whether True or False
6. Outstanding Insurance is to be shown on the Assets Side of the Balance Sheet.
7. When New Partner is admitted on the $1^{\text {st }}$ day of year, division in Profit and Loss A/c, Profit and Loss Appropriation A/c is required.
8. No Interest is payable to a New Partner before Admission.
9. Net Profit after admission of partner is transferred to all partners in Old Profit Sharing Ratio.
10. If any Interest is allowed on Retiring Partners Loan A/c such amount of Interest is to be debited it to P \& L A/c in After Retirement column.
C. Show both the effects of following adjustments and give the Journal Entry.
11. In the Trial Balance Legal Expenses are Rs. 10,000.Legal Charges Rs. 5,000 paid are included in the Legal Expenses.
12. In the Trial Balance there are Purchases of Rs. 2,00,000 which included purchase of Furniture of Rs. 20,000.
13. Goods costing Rs. 10,000 are lost by fire and Insurance Company admitted a claim of Rs. 8,000.
14. Trade Expenses accrued but not entered in the books amounted Rs. 2,500.
15. Bills Receivable includes a dishonored bill.

## Illustration - 5 [Admission of a partner]

A and B were partners in business sharing profit and losses, A twothird and B one-third. Interest on Fixed Capital was credited @ 5\% p.a. No. interest was charged on drawings. Accounts were made upto $31^{\text {st }}$ March of each year.

On January 1, 2014 C was admitted as partner and from that date all P and L were to be shared, A six-tenth B three-tenth, C one-tenth. Before ascertaining the partners shares of P and L C was to be credited with a salary at the rate of Rs. 6000 p.a. Provisions regarding interest on capital and drawings remained unaltered.

It was agreed that C's total share of profits including his salary and interest on capital, should be guaranteed by A at minimum rate of Rs. 15000 p.a. Any apportionment of profit for a particular period should be made as to gross profit on the basis of sales and as to expenses, with the expectation of general expenses on the basis of time.

The Trial Balance extracted from the books on $31^{\text {st }}$ March 14 was as follows-

| Particulars | Dr. | Cr . |
| :---: | :---: | :---: |

|  | 4,38,000 | 4,38,000 |

On $31^{\text {st }}$ March, 2014 the stock was valued at Rs. 47000, rates paid in advance amounted to Rs. 600; Rs. 800 is to be provided for electricity consumed to that date.

Included in the sundry debtors was an amount of Rs. 6000 for goods invoiced on sale or return on $1^{\text {st }}$ February 2014 which were still unsold on $31^{\text {st }}$ March 2014. The cost of these goods which were not included in the stock was Rs. 3000.

Depreciation is to be provided @ $20 \%$ p.a., on the cost of the delivery van at $21 / 2 \%$ p.a., on the cost of furniture and fittings.

You are required to prepare:-
(a) Trading and P and L A/c for the year ended $31^{\text {st }}$ March 2014 and
(b) Balance Sheet as on that date: Ignore Taxation.

## Adjustments:-

1) Provide $10 \%$ depreciation on Equipment and Furniture.
2) The business has handled $50 \%$ more work in each of the months of the last quarter compared with the previous months.
3) Outstanding Fees 31-12-2013 includes Rs. 45000 for fees to be collected for the period in the last quarter of 2013. All outstanding fees should be provided.
4) Rent has been increased by Rs. 500 p.m. from 1-7-2013
5) A clerk was appointed at Rs. 1000 p.m. from 1-9-2013

## (1) Rent

Less: Increased ( $500 \times 6 \mathrm{mths}$

## Rent (without increase

Therefore, Rent $=18000 / 12$ Rs. 1500 per Mth.
(a) Rent (from 1-1-2013 to 1-9-2008)

1-1-2008 to 30-6-2013 ( $1500 \times 6$ mths.) 9,000
1-7-2013 to 30-9-2013 (2000 * 3 mths.) $\quad 6,000$
Total
15,000
(b) Rent (from 1-10-2013 to 31-12-2013 (2000* 3 mths.) 6,000

## (2) Salaries

Salaries
40,000
Less: Clerk appointed ( $1000 \times 4$ mths.) $\quad 4,000$
Salaries (without appointment)
36,000
Therefore, Salaries $=$ Rs. $36000 / 12=$ Rs. 3000 per mth.
(a) Salaries (from 1-1-2013 to 30-9-2013)
1-1-2013 to 31-8-2013 (3000 x 8 mths.) 24,000

1-9-2013 to 30-9-2013 ( $4000 \times 1 \mathrm{mths}$.) $\quad 4,000$
Total
28,000
(b) Salaries (from 1-10-2013 to 31-12-2013)

1-10-2013 to 31-12-2013 ( $4000 \times 3$ mths.)

## (3) Fees Earned

Lets assume, average monthly work in first three quarters be 2 x per month. Therefore, average monthly work in last Quarter $=3 \mathrm{x}$ per months.
Work (01-01-2013 to 30-9-2013) $=2 \mathrm{x}$ for $9 \mathrm{mths} .=18 \mathrm{x}$
Work (01-10-2013 to 31-12-2013) $=3 \mathrm{x}$ for $3 \mathrm{mths} .=9 \mathrm{x}$ Therefore, Work upto 30-9-2013 and after 01-10-2013 is in 2:1.

## (4) Goodwill Adjustment

As the new profit sharing ratio is not specified, the sacrifice
by old partners (Gandhi and Gujar) is in old profit sharing ratio (i.e. 3:2). The entry passed is

Jani's capital A/c...............Dr. 40,000
To Gandhi capital A/c 24,000
To Gujar Capital A/c 16,000

## (5) New profit sharing ratio

(a) Partner Gandhi $=3 / 5$ of $(1-1 / 5)=12 / 25$
(b) Partner Gujar $=2 / 5$ of $(1-1 / 5)=8 / 25$
(c) Partner Jani $=1 / 5=5 / 25$

Therefore, Gandhi : Gujar: Jani: 12:8:5

## Illustration - 7 [Admission of A partner in between the year]

M/s Kunal \& Co. having Deepak and Ram (sharing profits and losses in 2:1) decided to admit Amit, as partner from 1-1-2014. The new profit-sharing of the partner was Deepak: six-tenth; Ram : three-tenth; and Amit: One-tenth.

According to the partnership deed, interest @ 10\% p.a., is payable on fixed capital: No interest was charged on drawings. The capital should be prepared on $31^{\text {st }}$ March each year Deepak and Ram admitted Amit on following terms and conditions:-
(1) Amit should get salary of Rs. 9000 p.a.
(2) Amit's share of profits (including salary and interest on capital should be guaranteed by Deepak at a minimum of Rs. 16000 p.a., from the date of admission.
(3) Apportionment of expenses should be made on the basis average sales, except from miscellaneous expenses and administrative expenses.
(4) Goodwill of the firm was valued at Rs. 100000 and it should be raised in the books.

The Trial balance on $31^{\text {st }}$ March, 2014 was as follows:-

| Particulars | Dr. <br> Rs. | Rr. <br> Rs. |
| :--- | ---: | ---: |
| Current and Capital Accounts: |  |  |
| Deepak | 60000 | 96000 |
| Ram | 30000 | 48000 |
| Amit (Capital Brought on 14-2-2014) | 6000 | 16000 |
| Cost and Provision for Depreciation |  |  |
| On Office furniture | 20000 | 8000 |
| On Delivery Vans | 48000 | 18000 |
| Purchases and Sales | 400000 | 610000 |
| Debtors and Creditors | 60000 | 20000 |
| Stock on 1-4-2013 | 90000 |  |
| Miscellaneous expenses (upto 31 ${ }^{\text {st }}$ (December Rs. | 20000 |  |
| 11900) |  |  |
| Rent, Rates and Taxes | 44000 |  |
| Carriage outward | 17000 |  |
| Cash \& Bank | 11000 |  |
| Goodwill | 10000 |  |
|  | 816000 | 816000 |

In addition following information is to be considered:-

1) Stock on 31-3-2014 Rs. 34000.
2) Rent, Rates and Taxes outstanding on 31-3-2014 Rs. 4000.
3) Carriage outward paid in advance on 31-3-2014 Rs. 2000.
4) Sales and Debtors includes goods sent on "sales or return" basis on 01-03-14 of Rs. 25000 (Cost Rs. 15000) On 31-3-14.
(i) $50 \%$ of goods accepted by customers.
(ii) $10 \%$ of goods no intimation from customer but period of approval expired on $25^{\text {th }}$ March 2014.
(iii)Balance goods, period of approval not expired.
5) Average monthly sales for the months of January, March, May to July, September to December were half, compared to average monthly sales of the remaining months.
6) On 31-3-2014 partners decided that partners fixed capital should be in 8 (Deepak); 4 (Ram); 1 (Amit). For this purpose, Amit's capital should be considered as base. The shortfall in case on Ram, should be adjusted through introduction of cash by Ram. However shortfall of Deepak should be transferred to his current a/c. The necessary cash was brought by Ram on 31-3-2014 for which no entry was passed.
7) Provide $10 \%$ depreciation on Office furniture and on delivery vans.

Balance Sheet
As on 31 ${ }^{\text {st }}$ March 2014

## Working Note:-

## 1) Sale or Return Goods:

(a) $50 \%$ of the goods accepted by the customer and $10 \%$ of the goods for which no intimation is received but period of approval has expired should be considered as a sale. These goods are already include in sales and debtors \& therefore no adjustment entry is required for $60 \%$ of the goods.
(b) Balance $40 \%$ (i.e. $100 \%-50 \%-10 \%$ ) goods, for which period of approval is not expired cannot be considered as sale. Therefore
(i) Cancel sales (i.e. less from sales and less from debtors) $=$ $40 \%$ for Rs. $25000=$ Rs. 10000
(ii) Include in closing stock $=40 \%$ of $15000($ cost $)=$ Rs. 6000 (i.e., at cost and market value, whichever is less).
2) Sales ratio:

Let us assume sales for remaining months $=2 \mathrm{x}$ each.
Sales for specified months $=x$ each.
Sales from 1-4-2008 to 31-12-2008 (9 months)
Apr May Jun July Aug Sep Oct Nov Dec Total
$2 \mathrm{x}+\mathrm{x}+\mathrm{x}+2 \mathrm{x}+\mathrm{x} \quad+\mathrm{x}+\mathrm{x} \quad+\mathrm{x}+\mathrm{x} \quad=11 \mathrm{x}$
Sales from 1-1-2009 to 31-3-2009 (3 months)
Jan Feb Mar Total
$\mathrm{X}+2 \mathrm{x}+\mathrm{x} \quad=4 \mathrm{x}$
Therefore, Sales 9 months : months :11:4.
(3) Depreciation :

Method of depreciation is not specified and therefore dep. is provided on reducing balance method.

| Particulars | Off.Fumit. | Delivery van |
| :--- | ---: | ---: |
|  |  |  |
| Cost | 20,000 | 48,000 |
| Less: Pro For Dep. (1-4-2013) | 8,000 | 18,000 |
| W.D.V. | $\mathbf{1 2 , 0 0 0}$ | $\mathbf{3 0 , 0 0 0}$ |
| Less: Depreciation @ 10\% | 1,200 | 3,000 |
| W.D.V. on 31-3-2014 |  |  |
|  | $\mathbf{1 0 , 8 0 0}$ | $\mathbf{2 7 , 0 0 0}$ |

(4) Gurantee of Profit (by Deepak to Amit)

Gurantee (for 3 months i.e, 01-01-2013 to 31-03-2013)
Total amount receivable by Amit
Salary (9000 x 3/12)
Add: Interest on capital (on Rs. 16000 @ $10 \%$ from 14.2.2009

Add: Profit [1/10 of (14800-6050)]
Add: Shortfall to be borne by Deepak (Bal.Fig)

Therefore, Total profit Amit=875+675=Rs. 1550.

## Profit of Deepak:

Profits [6/10 of (14800-6050)] 5250
Less: Shortfall of Amit
Total profit of Deepak
4575 $\qquad$
(5) Fixed capital adjustments:

Fixed capital of Amit
16000
Therefore, Fixed capital of Deepak (16000x8/1)
128000
Therefore, Fixed capital of Ram (16000x4/1) 64000
(a) Shortfall of Deepak

Shortfall of Rs. 32000 (i.e, 128000-96000) should be debited to Deepak's current account.
(b) Shortfall of Ram

Shortfall of Rs. 16000(i.e., 64000-48000) should be brought in cash by Ram.
Therefore, cash balance increased by Rs. 16000
(6) The Journal Entry to raise Goodwill is

| Goodwill A/c ------ Dr. | 90000 |  |
| :---: | :--- | :--- |
| To Deepak's Current A/c (2/3) |  | 60000 |
| To Rams Current A/c (1/3) |  | 30000 |

## Adjustments:

1) $X$ and $Y$ were partners sharing profits and losses equally.
2) Mr. Z was admitted to the partnership on $1^{\text {st }}$ July, 2013.
3) On $31^{\text {st }}$ December, 2013 stock was valued at Rs. 23,500.
4) Rent \& Taxes paid in advance Rs. 900.
5) General Exp. Were outstanding Rs. 750.
6) Depreciate Furniture @ $10 \%$ p.a.
7) Share of Goodwill of new partner was valued at Rs. 1,000 on $1^{\text {st }}$ July, 2013 and is yet to be adjusted
8) Interest on capital to be charged at the rate of $10 \%$ p.a.

You are required to prepare Trading, Profit and Loss Account for the year ended on $31^{\text {st }}$ December, 2013 and Balance sheet as of that date.

## Working Notes:-

1] Time ratio ABC partners $1^{\text {st }}$ Jan. 2013 to $31^{\text {st }}$ Sep. $2013=9$ months.
B \& C partners $1^{\text {st }}$ Oct. to $31^{\text {st }}$ Dec. 2013 $=3$ months.
Therefore time ratio $=3: 1$.
2] Sales ratio from $1^{\text {st }}$ Jan. 2013 to $30^{\text {th }}$ Sep. 2013 Rs. 400000.
Sales from $1^{\text {st }}$ Oct. 2013 to $31^{\text {st }}$ Dec. 2013 Rs. 200000
Therefore Sales ratio $=2: 1$.
3] Salaries, rent, insurance, depreciation, sundry exp., are allocated on time basis as these are related with time.

4] Gross Profit, discount received, bad debts allocated on sales basis as these are related with turnover.

## Unit Structure:

### 4.0 Objective

4.1 Introduction
4.2 Classification of Liabilities
4.3 Order of Payment of Cash to Partners
4.4 Important Points
4.5 Check Your Progress
4.6 Illustrations on Piecemeal Distribution
4.7 Exercise
4.0 OBJECTIVE

After studying the unit the student will be able to:

- Classify the liabilities of the business.
- Describe the methods of allocation of cash among the partners.
- Solve the practical problems.

### 4.1 INTRODUCTION

In the previous chapter we have studied Dissolution of Partnership Firm. On dissolution of the firm business of the firm is closed, all the assets of the firm are sold and all the liabilities of the firm are paid off. The surplus remaining thereafter is paid to the partners against their loan account and their capital account balances. Here we assume that all these transactions take place on the same day. But in practice it takes time to dispose off all the assets. The payment of liabilities has to be done as and when the cash is available. It has to be in a specific order. This recovery of assets in installments and payment of liabilities in installments is called as PIECEMEAL DISTRIBUTION OF CASH.

### 4.2 CLASSIFICATION OF LIABILITIES

1. External Liabilities
2. Internal Liabilities
3. Partner's Capital Accounts

### 4.2.1 External Liabilities

These are amounts payable to outside parties. These are further classified into

## a. Preferential Liabilities:

These include amounts payable in priority to all liabilities. These are Government dues like Income Tax, Sales Tax, Excise Duties etc. Employees' Dues like outstanding wages, outstanding salaries, provident fund dues, etc.

Dissolution expenses: These are the expenses incurred for the purpose of successful carrying out of dissolution like payment for preparation of dissolution deed, advertisement and brokerage for disposal of assets.

## b. Other Liabilities :

These are further classified into:

Secured liabilities: These are liabilities / loans secured against some or all the assets of the firm. If it is secured by a charge on a specific asset then amount realized by sell of that particular asset shall be utilized for payment of these liabilities. For example bank overdraft secured against stock, mortgage loan against land and buildings. If these liabilities are not secured against a specific asset but on all the assets in general then amount realized shall be first utilized to pay off these liabilities.

Unsecured Liabilities: These are liabilities incurred during the normal course of business for which no security is given. For example sundry creditors, bills payable, loan from spouse of partner, etc. these liabilities are paid when all above liabilities are paid in full. If the amount available with the firm is not sufficient to pay all these liabilities, then the amount is paid in the ratio of their out standings.

### 4.2.2 Internal liabilities

Partner's loans: If a partner has given any loan to the firm then it will be paid after all the above liabilities have been paid in full but before anything is paid to partners against their capital accounts. If two or more partners have given loans to the firm and cash available is insufficient to pay these loans in full then the amount will be paid in the ratio of outstanding balance of the loan.

### 4.2.3 Partners Capital Account

After all the above liabilities are paid the cash available is paid to partners against their capital account by adopting any one of the following two methods.

Excess Capital Method (Highest Relative Capital Method/Quotient Method) Maximum Loss Method (Not in the syllabus)

### 4.2.3.1 Excess Capital Methods / Proportionate Capital Method-

This method is applied where the partners have not contributed their capitals in the profit sharing ratio. Some partner have contributed
more capitals than other partners. Hence it is required to pay such partners before other partners are paid. The method of calculating surplus capitals is as follows -

## Step No.

## Particulars

| I | Computation of Adjusted Capital: |
| :--- | :--- |
|  | Take capital account balances as per Balance Sheet |
|  | Add: General Reserve/Reserve funds/Profit and Loss |
|  | A/c Credit Balance in Profit Sharing Ratio |
|  | Less: Profit and Loss A/c Debit Balance |
|  |  |
| II | Write Profit Sharing Ratio |
|  |  |
| III | Find Capital Contribution per unit of profit i.e. Step I / Step II |
|  | Find out the partners with lowest capital contribution per unit of <br> profit. Taking his capital as base find out Proportionate Capital of <br> all the partners. |
|  | Find out the Excess Capital - Step I - Step IV (Adjusted <br> Vapital - Proportionate Capital) |
|  | If there're more than two partners then do the same process again |
| VI | Write Profit Sharing Ratio |
| VII | Find capital contribution per unit of profit - Step V / Step VI |
|  |  |
| VIII | Find out the partners with lowest capital contribution per unit of <br> profit. Taking this capital as base find out proportionate capital of <br> all the partners. |
|  |  |
| IX | Find out the Excess Capital - Step V -- Step VIII |

### 4.3 ORDER OF PAYMENT OF CASH TO PARTNERS:

After cash is paid for all internal and external liabilities cash should be paid to partners against their capital accounts as follows : (Step No. IX, Step No. VIII, Step No. IV)
a) Pay to the partner who is having ultimate excess. (Step No. IX)
b) Pay out the excess amount of other partners in their Profit Sharing Ratio. (Step No. VIII)
c) After the payment of excess capital, the capitals of the partners will be in their profit sharing ratio. (Step No. IV) All the available cash should be paid in Profit sharing ratio.
d) If any partner is taken over any asset then it should be assumed that he brings necessary cash in the firm. It should be added in the cash available and then total available cash should be distributed among the partners as above.
e) The balance left unpaid represents loss on realization. Payment more than the dues represents profit on realization.

### 4.4 IMPORTANT POINTS

a) If any reserve is to be created for dissolution / realization expenses, it should be created by setting aside cash after payment of Government and Employees' dues. If finally actual expenses are less than the reserve, the excess should be distributed among the partners.
b) If there is any contingent liability (like bill discounted with the bank not yet matured) cash should be set aside after payment of all external liabilities, but before making any payments to the partners. If the liability arises it should be paid from the cash reserved. If the liability does not arise, the cash kept in reserve will be distributed among the partners when it becomes certain that the liability is not to be paid.
c) If nothing is mentioned about security of a liability the same should be treated as unsecured.
d) In case of a secured liability, payment should be made for such liability only if the asset charged for that liability is realized. However if any other asset is realized then the secured liability should be treated at par with other unsecured liabilities and payment should be made proportionately.

### 4.5 CHECK YOUR PROGRESS

1. Define the following terms:

- Preferential liabilities
- Adjusted Capital
- Piecemeal Distribution of Cash
- Internal Liabilities

2. Fill in the blanks:

- In Piecemeal Distribution amounts realized from assets are distributed in the order $\qquad$ .
- Excess capital Method is applied where the partners have not contributed there capitals in the $\qquad$ -.
- Preferential Liabilities include Government dues like
$\qquad$ .
- If two or more partners have given loans to the firm and the cash is in sufficient for full payment then the loans will be paid in the $\qquad$ ratio.

3. Calculate the Adjusted Capital from the following:
$\mathrm{X}, \mathrm{Y}$ and Z are sharing profits and losses in the ratio 3:2:1.The Capital Account is showing credit balances of Rs. 60,000, 20,000 and 30,000 respectively ,General Reserve is Rs. 60,000 and P\&L A/c Debit Balance Rs. 12,000.

### 4.6 ILLUSTRATIONS ON PIECEMEAL DISTRIBUTION

## Illustration 1:

$P, Q, R$ are partners sharing profits and losses in the ratio of $4: 2: 1$. they decided to dissolve the partnership as on $31^{\text {st }}$ March 2014 when their Balance Sheet was as follows:

Balance Sheet

| Liabilities | Rs. | Assets | Rs. |
| :--- | ---: | :--- | ---: |
| Creditors | 23,200 | Cash in hand | 680 |
| General Reserve | 37,800 | Investment | 60,000 |

|  |  | Building | $3,82,920$ |
|  |  |  |  |
|  | $8,66,000$ |  | $8,66,000$ |

All creditors have to be paid off Rs.4800/- have to be provided for realization expenses. Thereafter all cash received should be distributed among the partners. The amounts were realized in installments as follows

|  | Rs. |
| :---: | ---: |
| $1^{\text {st }}$ | 60,000 |
| $2^{\text {nd }}$ | 32,320 |
| $3^{\text {rd }}$ | $4,60,000$ |
| $4^{\text {th }}$ | $1,83,680$ |

The actual realization expenses were Rs.2400/-. Prepare a statement showing distribution of cash as per Excess Capital Method.

The Partnership is dissolved and the assets were realized as under:-
$1^{\text {st }}$ Realisation: Rs.50000/-
$2^{\text {nd }}$ Realisation: Rs.100000/-
$3{ }^{\text {rd }}$ Realisation: Rs.85000/-
On the date of the dissolution there was a contingent liability of Rs.5000/against the firm which was settled at Rs.3500/- at the time of $2^{\text {nd }}$ realization. Realisation expenses were estimated at Rs.10000/- but those actually amounted to Rs.7500/-. R took over stock worth Rs.2500/- at the
time of $3{ }^{\text {rd }}$ realization. The firm was forced to pay Rs. 3000 to sales tax authorities as fine out of the $3^{\text {rd }}$ realization for which no provision was made prepare a statement showing distribution under Excess Capital Method.

## Illustration 10:-

The partners $\mathrm{X}, \mathrm{Y} \& \mathrm{Z}$ have called upon you to assist them in winding up the affairs of their partnership on $30^{\text {th }}$ June 2013. Their Balance Sheet as on that date is given below:

| Liabilities | Rs. | Assets | Rs. |
| :--- | ---: | :--- | ---: |
| Sundry Creditors | 34,000 | Cash at Bank | 12,000 |
| Capital Accounts |  | Sundry Debtors | 44,000 |

| Y | 90,000 | Plant \& Equipment | $1,98,000$ |
| Z | 63,000 | Loan - X | 24,000 |
|  |  | Loan - Y | 15,000 |
|  |  |  |  |
|  | $3,21,000$ |  | $3,21,000$ |

1. The partners share profit and losses in the ratio of 5:3:2
2. Cash is distributed to the partners at the end of each month
3. A summary of liquidation transactions are as follows:

July 2013
Rs. 33,000 - Collected from Debtors balance is uncollectible
Rs. 20,000 - Received from sale of entire Stock.
Rs. 2,000-Liquidation expenses paid
Rs. 16,000 - Cash retained in the business at the end of month
August 2013
Rs. 3000 - Liquidation expenses paid as part payment of his capital, Z accepted a piece of equipment for Rs. 20,000 (book value Rs. 8,000)
Rs. 5,000 - Cash retained in the business at the end of the month
September - 2013
Rs. 1,50,000 - received on sale of remaining plant \& equipment
Rs. 2,000 - liquidation expenses paid. No cash retained in the business.
Prepare a statement showing distribution of cash by applying proportionate capital method.

## AMALMAGATION OF FIRMS I

## Unit Structure :

5.0 Objectives
5.1 Introduction
5.2 Meaning and Objectives of Amalgamation
5.3 Treatment in the Books
5.4 Solved Illustrations
5.5 Exercise

### 5.0 OBJECTIVES

After studying the unit the students will be able to:

- Define the term Amalgamation.
- Calculate the amount of Purchase Consideration
- Understand the accounting procedure for amalgamation.
- After studying the unit the students will be able to solve the practical problems on amalgamation.

### 5.1 INTRODUCTION

Business firms grow and expand through business combinations. Such combinations also help firms to secure operating efficiencies, avoid competition among them and economies of scale.

Amalgamation means merger or combination of two or more existing firms. Two or more existing business entities merged themselves into one entity, is known as amalgamation. After amalgamation of firms, amalgamating firms [existing/old firms] get dissolved, lose their existences and new firm is formed which is called as amalgamated firm.

### 5.2 MEANING AND OBJECTIVES OF AMALGAMATION

## Meaning

A partnership firm is formed with two or more persons. But it can also be formed in any of the following ways.
A) When two or more sole proprietors form new partnership firm,
B) When one existing partnership firm absorbs a sole proprietorship.
C) When one existing partnership firm absorbs another partnership firm.
D) When two or more existing partnership firm from new partnership firm.

The ICAI has issued Accounting Standard A.S. 14. Accounting for amalgamation. It is mandatory in nature. The standard classifies the amalgamation into two categories, namely.
a) Amalgamation in nature of merger.
b) Amalgamation in nature of purchase.

According to Accounting Standard A.S14, the term amalgamation includes absorptions. [Acquisitions]

There are two methods of accounting for Amalgamations, as per A.S.14.

1. Pooling of interest method [confined to amalgamation of companies only]
2. Purchase method.

## Objectives of Amalgamation

1. To enlarge the size of the firm.
2. To reduce overhead or expenses.
3. To avoid cut throat competition among the firms carrying on similar / complementary business
4. To achieve both external and internal economies of large scale i.e. purchasing bulk quantities, saving in transportation expenses etc.
5. To increase productivity and profitably of the firm.
6. To expand the business operations by having more resources like broader capital base, more man power.

## Consequences

Primarily the following consequences take place upon amalgamation.

1. Dissolution of existing amalgamating firms.
2. Formation of a new firm [called amalgamated firm] to take over business of existing / old firms.

### 5.3 TREATMENT IN THE BOOKS OF ACCOUNTS

### 5.3.1 General Instructions

There are given the following points in the practical problem:

1. Balance sheet of two existing firms / sole Proprietary concerns on date of amalgamation, which enables to close books of old firms, transferee capitals balances to new firm.
2. Terms and conditions of amalgamations i.e. revaluation of various asset and liabilities of both the firms, valuation of Goodwill, disposal of assets or liabilities not taken over by new firm, certain more transaction before or after amalgamation.

## The students are required to:

1. Ascertain purchase consideration.
2. Close books of old firms.
3. Accounting entries in books of new firm.
a. For recording Purchase Consideration.
b. Goodwill treatment.
c. Capital adjustment upon amalgamation.
d. Elimination of inter firm Owings, (if any)
4. Preparation of Balance Sheet of the New Firm.

### 5.3.2 Purchase Consideration:

Purchase consideration is the agreed amount to be paid by the purchasing firm to old firm. It can be calculated as follows:
A) Net asset method - Under this method, purchase consideration is equal to net asset taken over by the New firm at agreed values. Net asset means all assets taken over at agreed values / other wise at book values less liabilities taken over by the purchasing firm.

The purchase consideration is calculated as under:

|  | Particulars | $\square$ | $\square$ |
| :--- | :--- | :---: | :---: |
| Less: | A. Agreed values of assets taken over |  |  |
|  | Goodwill | X |  |
|  | Land \& Building | X |  |
|  | Stock | X |  |
|  | Sundry Debtors | X |  |
|  | Cash \& Bank | X | XX |
|  | B. Agreed values of liabilities assumed |  |  |
|  | Sundry Creditors | X |  |
|  | Bill Payable | X |  |
|  | Bank Loan | X |  |
|  | Outstanding Expenses | X | $[\mathrm{XX}]$ |
|  | Purchase consideration [A-B] |  | XXX |

You are required to take care about the following terms:
i) Business is taken over, implies all assets \& Liabilities are taken over at agreed value unless mentioned that particular asset or liability is not taken.
ii) Cash / Bank balance should be included in Purchase Consideration, only to the extent taken over by the new firm \& that much balance should be transferred to Realisation a/c.
iii) If it is mentioned that only trade liabilities are taken over, then creditors and bills payable are taken over by the by new firm, not any other liabilities.
B) Lump sum method - under this method amount of purchase consideration is given in lump sum. There is no need to calculate purchase consideration as it is directly given in the sum i.e. in the problem.

However, difference in Purchase consideration and net assets taken over, may be Goodwill or Capital Reserve.

Goodwill $=$ Purchase consideration less Net Assets taken over Capital Reserve $=$ Net Assets less Purchase consideration.

### 5.3.3 ACCOUNTING PROCEDURES FOR CLOSING BOOKS OF OLD FIRM (AMALGAMATING FIRM):

## CONVERSION / SALE OF PARTNERSHIP FIRM INTO A LTD. CO.

## Unit Structure:

6.0 Objectives
6.1 Introduction
6.2 Company Act 2013
6.3 Accounting entries for conversion
6.4 Solved practical problems
6.5 Exercise

### 6.0 OBJECTIVES

After studying the unit the students will be able to:

- Understand the concept conversion of partnership firm
- Calculate the Purchase consideration
- Explain the journal entries
- Solve the practical problems.

### 6.1 INTRODUCTION

Partnership firm in India is a major type of business concern which has led not only to the growth of the economy but also has provided employment and entrepreneur skills to the business. A growth in this business results in a need for tremendous expansion. However, a partnership firm suffers various inherent limitations of insufficient funding, unlimited liability, skills and competence in handling a business and so on under such a situation it becomes very necessary for the firm to change its form. The firm in such a situation may convert itself into either

1) A Joint Stock Company or
2) Limited Liability Partnership Firm to handle the spurt in the growth of the business.

In case the operations are very voluminous or large scaled a joint stock company becomes the most desirable solution. However it all depends on the partners' argument to change the form of the business.

This change of form may be done by either selling the firm altogether by converting it to a company.

## It has to be done through the following stages:

1. Finding out prospective buyer of the partnership firm who will purchase the firm and then form a company.
(In some cases, the partners may take help of the financial service providing firms and themselves complete the formalities)
2. Estimate the Purchase Consideration.
3. Transfer assets and liabilities to the companies.
4. Distribute the purchase consideration to the partners.

In the process of conversion or sale the students are required to:

1. Ascertain purchase consideration.
2. Close books of old firms.
3. Preparation of Balance Sheet of the New Firm.

Purchase Consideration (PC): It means the price to be paid to the partners for giving up their ownership rights.
The previous chapter has already discussed purchase consideration, a quick reviews is presented here.

## It can be calculated as follows:

1. Net Assets Method: Here the PC means Difference between the agreed values of assets taken over and liabilities accepted by the new company.
2. Net Payment Method: Here the PC means payment made through equity shares, preference shares, debentures, and cash to the partners.
3. Lump sum Method: It means large single payment to the partners.

### 6.2 COMPANY ACT 2013

Section 2(20) of the Act defines a company as, "Any company farmed and registered under this Act or any previous Act". Also through schedule III, the Act has laid down the disclosure requirements of the financial statements. (The Act is detailed in the following chapter Introduction to Company Accounts)
